MS Fram is
our newest ship,
built in 2007

MS FRAM

MS Fram builds on the heritage of the original Fram, taking the most advanced technology making it extraordinarily suited for expedition voyages in Polar regions. Fram means 'forward' in Norwegian – lifting expectations of the voyage at hand.

Of the 127 comfortable cabins a number of them are superior and are named after Norwegian polar heroes. The spacious outside decks include accessibility to the very front of the ship – a great place to observe marine wildlife. We are very proud of the art commissioned for MS Fram – local artists from the Arctic have contributed to making her a modern masterpiece. MS Fram is equipped with stabilisers. After dressing up for shore side excursions and expedition landings you meet at our "tender pit" where we safely embark our sturdy Polarcirkel boats which will take you safely and efficiently from ship to shore.
